

XM Satellite Radio is a great valuable tool that I use everyday. There is nothing like it around. The quality of all the shows is second to none. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I urge you to reject NAB's petition 04-160 and to support XM's ability to provide this kind of programming that I use and so many people in the future will be able to take advantage of. What a nice service to be able to hear what you need and enjoy anywhere you might be. This even has a Kids Disney channel which my 2 young kids cannot live without.

Thank you
